

# GN 9330

## Lightweight design. Wireless productivity.

The new GN 9330 wireless office headset is designed to enhance the way you work. Untie yourself from your desk, and experience greater comfort and increased productivity.

- Stylish, lightweight design
- Excellent sound clarity
- Up to 9 hours talk time without recharging
- Up to 100 meters of wireless freedom
- Multiple wearing styles included

The GN 9330 wireless office headset provides you with clear, peak-free sound. Noise-canceling microphone technology ensures your voice is always transmitted clearly, even when you're moving through those noisier areas. An extensive 9 hour talk time ensures you're always ready for action, and a cutting-edge design enables you to do business in style.

Headsets have never been so easy to use. The GN 9330 headset connects effortlessly and quickly to your telephone. Simplistic, intuitive headset controls make it easy to operate and with a weight of only 26 grams you'll forget you are even wearing it.

With a range of up to 100 meters, you can take the call throughout the office environment. An optional second battery can be kept charged in the base, which can be hot-swapped to provide around-the-clock talk time. In short, the GN 9330 allows you to escape the limitations set by your conventional telephone handset, providing hands-free convenience, all-day comfort, and superb sound clarity.
